American Academy of Optometry Announces Barbara Caffery, OD, PhD, FAAO, as President

ORLANDO – November 13, 2018 – The American Academy of Optometry is pleased to announce Barbara Caffery, OD, PhD, FAAO, as the incoming President of the American Academy of Optometry. Dr. Caffery was formally inducted during the Academy’s annual meeting in San Antonio, Texas on November 10, 2018. She is the first Canadian woman to serve as president.

“The American Academy of Optometry is an inspiration to each of its members. Here, dedicated practitioners and vision scientists participate by teaching, mentoring and collaborating, to promote the best evidence-based eye care and to disseminate vital vision science,” said Dr. Caffery.

Dr. Barbara Caffery is a Toronto optometrist who has worked in a group practice since her 1977 graduation from the New England College of Optometry. She is also a member of the University Health Network Multidisciplinary Sjögren’s Syndrome Clinic and the Kensington Vision and Research Centre’s Therapeutic Contact Lens Clinic. She is a Diplomate of the Section on Cornea, Contact Lenses & Refractive Technologies of the Academy. Dr. Caffery spends her days doing comprehensive eye care. Her areas of expertise are dry eye disease and contact lenses. She completed her Master of Science degree in Nutrition in 1987. She completed her PhD program in Vision Science at the University of Waterloo in 2009 upon defending her thesis titled, “Sjögren’s Syndrome: A Clinical and Biochemical Analysis.” She has done several clinical trials in dry eye disease and has published widely in the areas of contact lenses, dry eye and Sjögren’s Syndrome. Dr. Caffery is an invited lecturer at the University of Waterloo School of Optometry and Vision Science.

Dr. Caffery has served on the American Academy of Optometry board since 2007, most recently serving as Secretary-Treasurer (2014-2016) and President-Elect (2016-2018). She was instrumental in the formation of the Fellows Doing Research Special Interest Group designed to train and encourage the performance of clinical research by Fellows of the Academy.

About the American Academy of Optometry

The American Academy of Optometry (AAO) enhances excellence in optometric practice by fostering research and disseminating knowledge in vision science through its journal, *Optometry*

and Vision Science, and the continuing education presented at its annual meeting. Fellows of the Academy are committed to the premise that learning is a lifelong obligation of a professional, as is the commitment to expand the profession's knowledge base through ongoing fellowship and exchange.
