

## **FYidoctors Expands Footprint in High-Growth Regions**

**Mississauga, ON (April 23, 2019)** – FYidoctors, the world’s largest optometrist-owned eye care company, is excited to announce that Dr. Michael Banducci & Associates, located in Mississauga, ON, has joined the FYidoctors family.

Conveniently located in Downtown Mississauga, the clinic has been serving both the Mississauga community and neighbouring municipalities of Etobicoke, Brampton and Oakville for over 14 years. Dr. Michael Banducci, Dr. Gary Kogon and their staff look forward to continuing to provide affordable and comprehensive optometric services from their current location under the FYidoctors banner.

“We have always believed that listening to your patients’ concerns and taking the time to understand their complete history is the way in which eye care should be approached,” said Dr. Michael Banducci. “Our decision to join the FYidoctors family was due to the fact that they share the same value for that comprehensive approach and will offer both us and our patients benefits which are of great value.”

Under the FYidoctors banner, Dr. Michael Banducci & Associates will now enjoy the benefits of FYidoctors’s ophthalmic laboratory in Delta, British Columbia, where patients and customers can create custom glasses to suit their personal needs.

“I am particularly excited about Dr. Banducci joining our company. It was over 10 years ago when I visited him and told the FYidoctors story. We were just starting our company,” said Dr. Alan Ulsifer, Chairman & CEO of FYidoctors. “We have both watched each other grow and evolve over the years and I am proud to have his Mississauga team join our company after all of these years. They will be an amazing addition to our team.”
