

FYidoctors Continues to Add Locations in Ontario

Mississauga, ON (April 30, 2019) – FYidoctors, the world’s largest optometrist-owned eye care company, is pleased to announce Dr. Dianne Powell & Associates Optometrist will be joining the FYidoctors family. This marks the second clinic acquisition in Mississauga this month alone and adds to the ever-growing presence of FYidoctors clinics in Ontario.

“Every decision we make as a clinic is done with the best interest of our patients in mind,” said Dr. Dianne Powell. “By joining the FYidoctors family, we have done just that and are thrilled to work with a company that values patients over products and is committed to the long-term health and well-being of them”.

Dr. Dianne Powell is a member of the Ontario and Canadian Association of Optometrists and the College of Optometrists of Ontario. She is certified in the treatment and management of ocular diseases, is a past member of the advisory board for TLC Laser Centres, and has special interests in laser vision correction, children’s vision, contact lenses, and dry eye management.

“The addition of Dr. Dianne Powell & Associates Optometrist to the FYidoctors family is one of great value to us as we continue to grow our footprint in the rapidly growing Greater Toronto Area,” said Dr. Alan Ulsifer, Chairman & CEO of FYidoctors. “Dr. Powell’s certification in the treatment and management of ocular diseases is one of the many added values she brings to the company and the communities the clinic serves.”

As an FYidoctors partner, the clinic will be able to leverage the advanced technology and expertise of Canada’s largest and fastest growing eye care company. The practice will gain access to FYidoctors’s ophthalmic laboratory, as well as a wide range of designer and exclusive label frames.
