

Optometry Clinic Beaulieu and Jalbert join Visique

Gaspe, QC (April 25, 2019) – Visique is pleased to announce Optometry Clinic Beaulieu and Jalbert have officially joined the Visique family. Along with the name change, the clinic has relocated within Place Jacques-Cartier and is now near the Center-Ville medical clinic.

As part of this next phase for the clinic, more than \$600,000 has been invested in new equipment and renovations in order to enhance the patient experience under the new Visique name. With these advancements, the clinic will be able to provide a new, unique eye care experience to the community of Gaspe. Customers and patients will also benefit from some of the most competitive pricing offered on a wide selection of high-quality frames exclusive to Visique.

“While our clinic’s name may have changed, our commitment to exceptional personalized eye care remains the same,” said Dr. Maxime Paré. “Patients and customers can expect to be examined with equipment using the latest technology and will now have the ability to create custom glasses through Visique’s ophthalmic laboratory.”

The staff from Optometry Clinic Beaulieu and Jalbert will remain unchanged, including optometrists Dr. Gaëtane Fournier, Dr. Éric Jalbert and Dr. Maxime Paré. They will now be part of a larger team of 250+ associate optometrists operating in Quebec under the Visique banner. The reason for this transition is due to a shared philosophy of patient health and desire to utilize sought-after resources offered by Visique.

The public and media are invited to celebrate the new location on Friday, April 26 from 8:30am to 5pm. The three optometrists as well as the clinic team will be on hand to guide guests through the new offices, highlight the next generation of optometry and answer any questions patients may have. Attendees will enjoy discounts from 20% to 70% on all frames. In addition, a representative of the Lanctôt brand will be on hand to present the MEXX, OWP, Morel 1880, Julbo and Jaguar collections.
