

FYidoctors announces latest clinic to open in Vancouver

CALGARY, AB (July 27, 2020) – FYidoctors, the world's largest optometrist-owned eye care company, today announced Keefe Place Eye Care as the latest clinic to now operate under the FYidoctors banner.

Led by Dr. Raymond S. Chow, Keefe Place Eye Care has been in operation for over 15 years and is conveniently located in Downtown Vancouver. They are proud to provide family eye care using the latest technologies, inclusive of staff who are fluent in English, Cantonese, and Mandarin.

“We are always pleased to welcome new clinics to the FYidoctors family, furthering our reach across Canada and helping enhance lives,” said Dr. Alan Ulsifer, CEO and Chairman of FYidoctors. “We look forward to providing Dr. Chow and his team at Keefe Place Eye Care with added value and continuing to deliver exceptional eye care for their patients.”

Dr. Chow received his Doctor of Optometry from the University of Waterloo and brings to his practice over 30 years of experience as an optometrist. He is dedicated to providing his patients with the most up-to-date technologies and therapies, and holds a specialty in orthokeratology, or Ortho-K, which helps to eliminate near-sightedness and astigmatism with an overnight eye retainer.

“At Keefer Place Eye Care, our goal has always been to provide a full range of optometry services alongside an exceptional experience,” said Dr. Chow. “In order to continue facilitating this, we look forward to our partnership with FYidoctors and the added benefits this will provide to both our patients and community.”

The addition of Keefer Place Eye Care marks FYidoctors’ sixth clinic in Downtown Vancouver. Operating under the FYidoctors brand, the clinic will receive benefits such as access to exclusive brands, efficiencies passed on from the fully automated laboratory and distribution centre in Delta, British Columbia, and access to internal freeform technology that offers high-quality lenses.
