

Canmore MediSpa and Laser Centre Joins FYidctors

Canada's leading diversified healthcare organization strengthens its team of aesthetic medicine practices in Canada with its latest addition

CALGARY, AB (July 27, 2021) – FYidctors, Canada's leading diversified healthcare organization, is pleased to announce Canmore MediSpa and Laser Centre as the latest clinic to join the company. The addition marks the organization's first medical aesthetic clinic in the Town of Canmore, Alberta, and its eighth clinic in the province.

Led by Dr. Rick Balharry and his team of aesthetic medicine professionals, Canmore MediSpa and Laser Centre has proudly operated in the scenic region for over 40 years and has been recognized for its unique environment that combines a cosmetic and medical practice. The clinic offers a comprehensive array of services, from advanced laser & light therapies and skin health treatments, to complementary surgical procedures such as varicose vein treatments, vasectomies, labiaplasty, prolotherapy and more.

“Through this partnership, we see an incredible opportunity for the practice to implement positive change and upgrades that will not only help the business grow but have a lasting impact on our patients for the years to come,” said Dr. Balharry. “We look forward to enhancing the scope of our current aesthetic medicine offerings, and to continue providing our patients with the excellent care and results they’ve come to expect.”

A graduate of the University of St. Andrews in Scotland, Dr. Balharry has called Canada home since 1973 and led the development of the aesthetic medicine division at Canmore Medical Laser Centre in 1995. Regarded as the first practitioner to introduce the medical laser to Bow Valley, over the years Dr. Balharry has attended many courses and training sessions with some of the leading cosmetic physicians in North America. His specialities include the treatment of varicose veins including surgery, and regenerative medicine for the treatment of musculoskeletal disorders.

“We’re thrilled to announce today’s merger and to welcome Dr. Balharry and his practice to the FYidoctors organization,” said Dr. Alan Ulsifer, CEO and Chairman of FYidoctors. “FYidoctors’ aesthetic medicine division continues to grow at an exponential pace, and we look forward to onboarding a team of like-minded experts who share the same values and best practices as our team.”

A pillar in the community for decades, the practice has long supported multiple community-led initiatives including the Canmore Area Health Foundation and the youth-focused initiatives at the Banff Squash Tournament.
