

FYidoctors announces addition of Toronto's Glow Medi Spa
Second Ontario location added to the company's growing medical aesthetic division

CALGARY, AB (August 10, 2021) – FYidoctors, Canada's leading diversified healthcare organization, today announced the addition of Glow Medi Spa to its growing medical aesthetic division. Located in heart of Yorkville in Downtown Toronto, the announcement highlights the company's second medical aesthetics location in Ontario, having recently expanded into the province in July.

In operation for over 20 years, the clinic is owned and led by entrepreneur Dr. Diane Wong, who specializes in non-surgical cosmetic medicine. After receiving her medical degree in 1996 from McMaster University, Dr. Wong completed four years of surgical residency at Dalhousie University, followed by completion of Family Medicine at the University of Western in 2001. Led to cosmetic medicine by her ongoing passion for technical procedures, Dr. Wong has been highly engaged in training programs, media publications and professional associations throughout her career, including the College of Physicians and Surgeons of Ontario, and the Leading Spas of Canada.

"We're pleased to partner with FYidoctors, with one of the primary drivers being the added benefits now available to Glow Medi Spa's clients and medical staff," said Dr.

Wong. “Many of our clients have been with us for over a decade, and we look forward to now partnering with a national group of physicians – who like us, pride ourselves in providing excellent care in medical aesthetics.”

Alongside Dr. Wong, Glow Medi Spa is known for its professionalism, engaged team of medical staff, and for providing the highest quality service available in medical aesthetic treatments. Notable achievements include being voted ‘Top Medi Spa in Canada’ by Spa Inc. and the Spa Industry Association of Canada for three consecutive years, and features in beauty publications like Elle, Zoomer and Fashion Magazine.

“Dr. Wong and her team of highly skilled professionals have built a strong reputation in the aesthetic medicine field – not only in Ontario, but across the country,” said Dr. Alan Ulsifer, CEO and Chairman of FYidoctors. “We’re thrilled to announce today’s partnership and to continue building on the practice’s commitment to excellence and patient-focused care.”

A leader in technological advances and ground-breaking treatments, the practice specializes in a variety of services, including injectables, body sculpting, and customized treatment plans – to name a few. Over the years they have proudly

sponsored a variety of local fundraising initiatives and events through its local BIA, and the Yonge Bloor Bay Association.
