"THE LENS OF TIME" EXHIBITION DEBUTS AT THE SHOW

Around 1,200 exhibitors from 50 countries are expected with 140 new entries and visitors from over 160 countries

Milano, 4 December 2025 – **The constantly updated exhibitors list** of MIDO 2026, the 54th edition of the largest international eyewear event, scheduled from **31 January to 2 February 2026 at Fieramilano Rho, is now online**. The show is preparing for an edition with great expectations, with a forecast of **around 1,200 exhibitors from 50 countries**, in line with last year's edition, **including great returns and 140 new entries**, confirming the dynamism of the industry.

The areas of the fair: confirmations, expansions and innovation

The **Fashion Square**, the beating heart of Hall 1, will be completely renovated. In Hall 4, the square will be animated by an installation dedicated to **DaTE** (Naples, 12-14 September), while the square in Hall 6 will host the new edition of the exhibition **The Lens of Time**.

The iconic **Design area** returns to Halls 2 and 4, confirming itself as a hub of experimentation and creativity: growing exhibitors and new entries will arrive here, including some brands that leave the **Academy** to land in this area.

The Academy, confirmed in Hall 6, reinforces its mission as an accelerator for young brands. It will host over **90** companies. The **Start Up** section will see the participation of about **20** new companies ready to present projects and solutions in the name of innovation.

The exhibition "The Lens of Time" in Hall 6

After the Venice stop, the exhibition dedicated to the history of eyewear, conceived by ANFAO, arrives at MIDO with a new set-up designed for the international public of the fair. The exhibition traces the evolution of eyewear from its origins to the present day, highlighting its cultural, artisanal and stylistic value. After MIDO, the exhibition will continue in autumn 2026 in Rome, at Palazzo Piacentini, headquarters of the *Ministry of Enterprise and Made in Italy*, with the future plan of landing abroad.

The Vision Stage: between training and current affairs

MIDO's program of meetings, in-depth studies and workshops includes around **20 appointments** with journalists, actors, sportsmen, sustainability experts, market analysts and representatives of the medical and optical sectors. Among the central topics that will be discussed are social responsibility, market trends, purchasing behavior and the prospects of the US market. The complete calendar will be online in January.
